

Numab Therapeutics AG is an expanding, clinical stage Swiss biotech company based in Horgen, canton of Zürich. The company is focused on the discovery and development of innovative, antibody fragment-based therapeutics with a focus on inflammation and immuno-oncology. With our breakthrough antibody-discovery and multi-specifics engineering platform, we engage in proprietary projects as well as collaborative research on behalf of partners in the pharmaceutical industry.

To expand and develop Numab's proprietary therapeutics pipeline we are looking for a highly motivated individual for a role in research within our discovery team.

Scientist mAb Discovery (100%)

Your Responsibilities:

- Generate, analyse, & interpret high quality data in biochemical and cellular assay systems to progress Numab's discovery projects
- Provide strategies for immunizations and screening workflows for identification of antibodies
- Intellectual contribution to the design & organization of discovery projects
- Generation of innovative ideas for novel ways of antibody discovery and adaptation of processes
- Coordinate & support scientific activities within the team and with other teams

Ideal candidates will have:

- PhD in biology, immunology or biochemistry and good knowledge in antibody drug discovery with a strong focus on antibody generation (immunization, display technologies, single B cell sorting, etc.) and in vitro screening (cell-based and biochemical assays) or a Master graduate with relevant expertise and multi-year experience
- Two to three years of relevant industry experience is preferable and experience in collaborative teamwork is a must
- Expertise in high throughput screening & flow cytometry with good acumen for automation
- A strong goal-oriented mindset with a passion for problem-solving and an ability to guide associates
- Exceptional interpersonal and communication skills and sound oral and written English
- Data compilation and statistical analysis, presentation of results to internal & external audience
- An accurate and independent working style

What we offer:

- A diverse field of activity in a dynamic workplace with an inspiring, entrepreneurial atmosphere
- Flat structures and fast decision-making
- The opportunity to take responsibility, help shaping and implementing solutions
- Employment conditions in line with the market, superior pension plan and opportunities for further personal development
- Regular bonus and participation in the employee stock option plan
- Participation in several fun team events
- A workplace near the city of Zurich overseeing the lake

Are you looking for an opportunity where your contributions are both essential and valued? We are looking for skilled people who are eager to make an impact. We are offering a permanent position in an innovative environment as well as a competitive compensation package including a participation in the company.

We are looking forward to receiving your application with reference number NB121 to hr@numab.com.
